SECTION - A
(Reading)

1. Read the following passage carefully and answer the questions that follow:

A man who possesses a strong will and firm determination, finds all difficulties solved. To him, there are a number of ways open to steer clear of all dangers and difficulties. Such a man goes on working hard, and even if he fails he is never downcast. Failures make him all the more determined and he persists in his task till he attains the desired success.

Therefore, the man who works hard with a strong resolution and an unshaken will, achieves success and makes his fortune. It is a folly to suppose that wealth, fame or power are achieved by luck, or destiny. A man can be the builder of his own fortune by sheer dint of perseverance, industry and strong will. The man who is lazy, sluggish and refrains from doing his duties, invites trouble and suffering in his life.
